

How Can You Help?

- Support efforts to end discrimination and demonization of LGBT individuals in matters of spirituality and religion.
- Advocate for change and social transformation in the best traditions of Gandhi, King, and Milk. In this leg of the journey we seek to change the human heart not the human mind.
- Support those around you engaged in the exploration of the meaning of life. Support your fellows whether your path is similar or not.
- Volunteer, we always need help. It is your demonstration of a commitment to build a more dynamic Community.
- Form networks of support for one another.
- Respect the values and aspirations of others avoiding the trap of “converting” others to your way of seeing the world. Dream, dream big.
- Attend to your soul in what ever form you deem best.

The Lavender Convention

The Lavender Convention strives to transform societies view of the LGBT individual's worth, while bringing to an end the stigma of non acceptance in the religious and spiritual community. In doing so, The Lavender Convention will create a platform for the LGBT Community to explore and expand their spirituality. As well as assisting religious organizations in the fostering of acceptance and inclusion.
